

PERMIT TO CONDUCT GEOPHYSICAL OPERATIONS

City of Clinton
P.O. Box 1177
Clinton, OK 73601
Attn: Grayson Bottom

Field Office:
103 N. Market St.
Cordell, OK 73632
580-832-2770

Veritas DGC Land Inc. (Veritas) is conducting a 3-D seismic survey and hereby respectfully requests your permission including the rights of ingress and egress on the following described lands in which you have interest in the surface, minerals, and/or oil and gas leasehold. In consideration for this permit covering geophysical operations on the lands described below, Veritas shall make payment to you, as Grantor, the sum of \$1000.00, which is to be covered and entered during the seismic survey.

Legal Description: City of Clinton

It is the intention of this permit to cover all surface and mineral interests owned by you including such lands, rights and interests that may not be known at the time this permit is executed that lies within the boundary of this survey.

Veritas will conduct geophysical operations in accordance with standard geophysical practices and in a prudent, careful manner. Veritas agrees to indemnify and hold you harmless against all actions, suits, claims and demands whatsoever that may arise from our operations on your property.

If you have any questions, please contact us at the numbers provided above. Thank you very much for your cooperation on this matter.

**PROPOSED SEISMIC OPERATION PLAN FOR
THE CITY OF CLINTON, CUSTER COUNTY.**

The seismic survey in the City of Clinton would involve the following:

Veritas request permission to lay seismic cable and geophones thru the City of Clinton generally from Glenn Smith Road to 28th Street going in a North/South direction every 1320' to the Northern most point being Modelle Avenue.

There would be 10 individual north/south lines within the grid. Veritas' plan would be to utilize streets and alleyways to place its equipment. The seismic cable and geophones would be laying on the ground anywhere from 2 to 8 weeks depending on crew progress. All equipment will be removed upon completion.

Veritas agrees to place no vibrator points on City of Clinton property or within residential areas of the city limits, all vibrator points will be located on private property subject to individual landowner approval.

The seismic cable and geophones would be laying on the ground anywhere from 2 to 8 weeks depending on crew progress. All equipment will be removed upon completion.

A short list of landowners who have given Veritas approval to conduct this survey on their individual properties in the vicinity of or within the city limits of the City of Clinton is attached.

Please contact me if any further information is needed. Thank you for your cooperation in this matter.

Respectfully,

**Veritas Land Surveys
