Re: Agricultural Lease

The Clinton Industrial Authority purchased approximately 110 acres of land adjacent to the Clinton Cemetery in September 2006. It had been planned to use dirt from this location for the construction of the access road. Now it appears that project will not be in the near future.

We have been contacted by various individuals who expressed interest in leasing the property. Staff request authorization to go to bid for the lease of the 110 acres of land for agricultural purposes.
