Okay. Got it.

The double sided 5 x 8 in 19 mm full graphics with cabinet, mounted on poles will be approximately \$61,000.00 plus tax. This includes warranty. If you wish to make payments, much of this total can be financed through Daktronics. If you decide you are interested in this product, the Daktronics rep and I will bring a mobile unit of this same sign and do an on premise demo for you next week.
Thank you,

Hello Julie,

Below you will find several attachments of videos from the Daktronics rep and I don't know how to separate them out so you get them all. SO, if you go to the first one, headlined Daktronics Products Page you will see the demo for the reader board. If you are interested in pursuing this type sign I have a quote for you.

Daktronics also custom builds a full graphics board. The Daktronics rep has of their full graphics board that is mobile. If you would like a demo he and I will bring it to you next week. Please advise.
Thank you for this opportunity.
