Cloud Share NEVER BURN A DVD AGAIN No need to burn and courier evidence via DVD when you can use a secure cloud account to temporarily share a copy of digital evidence files residing on your agency server. Find and share a video File with an individual, like a district attorney, or a group of people in as little as 20 seconds. **DETAILED CHAIN OF CUSTODY** Audit trails are created instantly and updated each time a file is uploaded, shared, viewed or shared again

Record After the Fact is on all WatchGuard Systems. THE POWER TO GO BACK IN TIME AND RECORD AN EVENT AFTER IT HAPPENED. Sometimes, there just isn't enough time to press record, and the opportunity to capture critical video evidence is thought to be lost. Record-After-the-Fact (RATF) provides the ability to go back in time and capture the video from the event days after it happened. **NEVER MISS AN INCIDENT** If agency policies dictate, the 4RE In car System and VISTA body-worn cameras can be configured for continuous background recording, ensuring events are always recorded - never missed
