

The fire department and the police department are seeking approval for the purchase of new dispatch equipment. This will replace cables and equipment that are 20+ years old in. As you are aware, we have new handheld radios and mobile radios.

This request is for the equipment that will increase the efficiency and effectiveness of our dispatch center, thereby, increasing the safety of all first-responders that rely on Clinton Dispatch. I have included a listing of parties that are willing to participate in the purchase of this equipment.

The price of this equipment is \$63,598.24. Considering the obligations of the other parties, the capital outlay for the City would be \$31,799.12. These items are on state contract and; therefore, going to bid is not required. Total Radio who did the first phase of our communications plan has priced this 2nd phase \$6600.00 below the state contract price. I failed to budget for this item but, with the interest of the other entities, that we dispatch for, I believe it is something that should be done sooner rather than later. Please understand that the Clinton Dispatch equipment does need replaced.

Entities partnering with the city of Clinton to assist in the purchase:

Arapaho FD: \$5000.00

Butler FD: \$2500.00

Butler EMS: \$2500.00

C & A Ambulance: \$2500.00

Sinor EMS: \$2500.00

Custer City FD: \$2500.00

Clinton Fire Department County Sales Tax Fund: \$14,299.12
