

I, Roy Dale Conley, respectfully request my resignation be accepted pending my qualification for disability retirement. I have not been able to work since October 18, 2019.

I developed a medical condition which put me in the hospital for almost 2 months. Following my release from the hospital, other medical conditions have developed and prevented me from returning to my employment with The City of Clinton. Because of these developments, I have ongoing medical treatments in the future.

I have limited ability and strength to perform simple daily activities. As a result, I do not believe I will be able to return to the duties that my job requires.

So again, I am requesting that I be allowed to go on disability retirement.

I have included several personal statements and doctors' notes indicating my ongoing medical condition, and the uncertainty of when, if ever, I would be able to return to work, due my health.

I appreciate your consideration in this matter.

Respectfully,

Roy Dale Conley
