Robert,

Our intention is to offer a 2 year disposal agreement with the first year at \$78 a ton and the 2nd year at \$82 a ton. This will be based on the City of Clinton publishing an RFP for privatization by the end of the first contracted year with Republic which is July 31, 2025. We believe that this gives you time to exercise and evaluate the best service and revenue stream for the city.

Please let me know if you would like to move forward or have any questions.

Thanks,
Crystal

Crystal Bennett
