RE: Support for Foss Reservoir MCD Drinking Water Pretreatment Rehabilitation Project —
Bureau of Reclamation WaterSMART Title XVI WIIN Act Water Reclamation and Reuse
Project Program (No. R23AS00464)

Dear Ms. Nasstrom:

The [CITY NAME] officially supports the Foss Reservoir Master Conservancy District's application to the U.S. Bureau of Reclamation for funding to implement the proposed Drinking Water Pretreatment Rehabilitation Project through the WaterSMART Title XVI WIIN Act Water Reclamation and Reuse Project Program (No. R23AS00464). As an engaged stakeholder, we acknowledge that the implementation and construction of new, fully redundant treatment infrastructure and related processes at the Foss Water Treatment Plant is essential to the mitigation of future drought episodes and climate change in this region of the state, as well as to preserve the general economic and social welfare of western Oklahoma.

The [CITY NAME] appreciates this opportunity to extend its unwavering support of the MCD and members in strengthening our communities' collective ability to withstand all-too-frequent drought events and anticipated impacts from climate change through the Foss Reservoir MCD Drinking Water Pretreatment Rehabilitation Project.

Please contact me at [phone/email] should you require any additional information concerning our advocacy of this essential project.

Sincerely,

[NAME/TITLE/ADDRESS]
