

CONTRACT FOR SERVICES

BETWEEN

CITY OF CLINTON AIRPORT
AND
CATES ENTERPRISES, LLC.

Roger K. Cates, Technician of record

Facility: Automated Weather Observing Systems (AWOS III) @ CLINTON Municipal Airport

The undersigned agrees to maintain the above facility in accordance with all Federal Aviation Administration requirements contained in AC 150/5220-16 and the VAISALA operations/maintenance manual.

The procedures in the Vaisala operations and maintenance manual are in accordance with the FAA Advisory Circular and will be performed by the undersigned.

The maintenance Contract will become effective on October 1, 2024. If the duties are not performed satisfactorily, then at that time this contract could be considered null and void. The airport authority agrees to pay Cates Enterprises, L.L.C. a monthly fee of \$400.00 to be paid quarterly for the performance of this contract. This contract shall automatically renew on the anniversary date unless canceled in writing by either party.

These payments cover all Tri Annual inspections required by Vaisala and the FAA to verify all AWOS Systems. Adjustments and calibrations are part of the service. Service calls will be billed at \$250.00 per hour plus mileage at the current government rate.

Damage caused by act of God or other people, animals or things, to the equipment will be charged on a time and material basis as requested.

The system will be monitored on a scheduled basis, by telephone and computer. Emergency response time will be timely.

All services required under this contract will be performed by a Vaisala approved Technician. All repair parts are to be furnished by the Airport Authority.

It is expressly agreed and understood that the City of Clinton and its representatives will hold Cates Enterprises, LLC., or the Technician of record, the manufacturer, or its agents thereof, harmless for any and all liabilities, losses, death costs and expenses, including legal fees, which may arise on account of property damage or the death or injury of persons incident to the operation and/or maintenance of the aforementioned navigational aid.
